- Lucid dreams vs OBE what is the difference?
- Is Lucid dreaming useful?
- OBE getting out is easy, here are a few methods. Go out the feet. Or turn over. Focus on the center of the mind, then focus on a spot in the room. See yourself in detail, move the center of the mind to the spot.
- Dr. Questions. He can refer to us as Ramadon or Gandi.
- Questions about Alzheimer
- Suggested diet to prevent Alzheimer
- Ans. Digestion and elimination are area of interest
- Clarification, Alzheimer is a result of a malfunction of the digestion and or elimination system.
- What is the role of disease? Souls would persist too long on Earth and not move on to better things.
- Bertha F. reading
- Recommendation for treatment of Bertha.
- Remote Viewing of 43 40 51 N 10 18 46 E
- Ramadon mentions the remote viewing was done from Saturn

Comments: There is information here which when combined with other information on other tapes may bring together a complete picture. *I did some research on the 43 40 51 N 10 18 46 E and did not find a home matching the description or address given by Ramadon.*

A collection of rich and vivid material. Intuitively the material seems correct yet without validation it leaves the listener suspicious. Some followup on the advice given to the Dr. is needed.
